FOREWORD

Warm greetings from CHANDRADIP DEVELOPMENT SOCIETY -CDS!

I am delighted to present CHANDRADIP's Annual Report for the year 2020 to the members of the Chandradip stakeholders, family members, donor partners, well wishers & members of the civil society and concerned government departments.

CHANDRADIP already has passed more than 21 years in local development sector with pride considered a very little time in implementation to its organizational motto 'We Ensure Development for All'. Since July 1999 CHANDRADIP has been working with the poor women and men of the disadvantaged rural communities in disaster prone greater Barisal District region aiming to empower them and to alleviate their distress by utilizing their own potentialities and resources. CHANDRADIP's initiative is notable in the area of developing community force capable of planning, operating and managing need based program to address and upgrade socio economic problems in greater context.

To the point of my personal view, the achievement that we have achieved in these 20 years is really remarkable and it is the collective efforts of all the dedicated staffs & members of this organization who are contributing much to march forward towards vision of this organization. CHANDRADIP shall remain always grateful to these kinds of persons who are really challenging in their respective sectors. Besides, I am offering my heartiest thanks to all the Donor Organizations & their honorable representatives who are always assisting us through inspiring and sharing their constructive ideas & thoughts and along with providing financial and technical support.

Let me extend my gratitude and thankfulness to all concerned including the community members/people for their active participation and creativity & for the support and guidance of our Executive Committee and General body. We recall with gratitude the hard work of our stakeholders and the support we got from our development partners and government organizations without which we would not be able to reach our goal.

The Annual Report 2020 gives out the picture-panorama of the organization's efforts throughout the year. The journey through 2020 was guided by the dynamic Executive Committee while the cooperation of the partners and the contribution of the dedicated staff-force brought the CHANDRADIP all the way.

Hope, this Report will be appreciated by the readers, and all our efforts will be fruitful if we can reach them with a comprehensive insight in our programs & progress for the year 2021

Jahanara Begum Shapna
